

# DUCC Systems Product Portfolio

DUCC Systems is an IT solution provider organisation. We are open for projects which have an IT requirement. We have categorized our present business operations into the following categories.

- ❖ Education Domain
- ❖ Web Domain
- ❖ SMEs (Small Business Enterprises) domain

## Our Products

## **Our Services**

⊕ **Training:** We also provide training to the students of technical background on subjects of Computer Science and Engg. Students of B.Tech and MCA are eligible for undergoing training in the various subjects of Computer Science during their summer training and winter training sessions.

We have also kept an option of placing those students who perform well in our organization.

⊕ **Consultancy:** We provide support to various schools and colleges on deciding the IT requirements like software and hardware necessities.

⊕ **Networking:** We are also open for projects on networking of the campus of the business units like SMEs, schools, colleges etc. This could be WiFi network or a wired network.

**Note: We are also keen on expanding our operations into the health sector with management systems for hospitals and clinics.**
